

Accuralite Tensile Tester

Accuralite Tensile Tester

The Accura-Lite provides accurate dependable tensile strength testing right on the job site. Easy set up, variable speeds both forward and backward, and a limit override are just a few of the features.

New to the Accura-Lite is a self calibrating load cell. This new S-Type load cell can handle up to 500 pounds with a +/- 1% accuracy.

Two types: Cam type jaws or the traditional lock down type.
