

The Pro-Wedge

The low cost, lightweight wedge welder that does it all!

**Model VM-20
Only 27 Lbs!**

**Still the most versatile
wedge welder on the
market!**

Over 600 units sold
since 1999!

Model VM-20 with in-house fabrication attachment
and adjustable lap control guides.

In disengaged position, wedge and nip rollers
offer plenty of clearance, reducing burn-outs at
beginning of seam when welding thin materials.

* Shipping case and adjustment tools included. Custom models available upon request. Call for details.
