

Wedge-IT

The Industry's Work Horse.

There is a reason everyone in the industry knows the name Wedge-IT. We've shipped thousands of these units. The Wedge-IT is the best in high end, heavy duty wedge welding and it keeps getting better.

It now features an Easy-Out-Wedge that makes changing cartridge heaters a breeze. The Wedge-IT sits on a solid one piece frame. There is no hinging and minimal frame flex. Drop out bottom contour rollers make for easy cleaning and access.

Pick one up and you'll see why it is the most widely used wedge welder in the world.

Features:

- Welds 20 to 120 mil materials.
- Temperatures up to 850 °F.
- 110 or 240 volts, switchable.
- Easy out cartridge heaters.
- In the field experience since 1987.
