

## X3-EX Geo

### You want power and high output? Here it is.

The X3-EX Geo's motor uses a synthetic oil bath gear box with oversized hardened gears and large, long life carbon brushes. There is a two year warranty on the motor drive gears and extruder heater so you know you are in good hands.

The rod feed is self adjusting for hard or soft materials. And at 31 inches long, this extruder lets you weld comfortably on the ground while standing upright.

An adjustable "Standle" that acts as both a handle and a stand and teflon shoes come with the X2.

#### Features:

- 13 lb/hr extrudate output.
- Temperatures up to 800 °F.
- 4 or 5 mm rod size.
- Hardened, oversized gears.
- 2 year warrantee on extruder, heater, and gear box.
